FOSTER'S FATE WILL BE WITH THE JURY TODAY

Final Arguments of Counsel
Were Made Yesterday

(By The Associated Press)

ST. JOSEPH, Mich., April 3.—William Z. Foster's fate will be in the hands of the jury by 10 o'clock tomorrow morning. Final arguments in his trial for criminal syndicalism were completed tonight and tomorrow morning at 9 o'clock Judge Charles White will deliver his instructions to the jurors.

Mr. Smith reached an equally dramatic climax this afternoon, when losing a two hours peroration he read to the jury from Lieutenant Colonel John McCree's war time poem, "In Flanders Fields."

"To you from falling hands, we throw,
The torch, be yours to hold it high."

NO UNDUE HASTE WILL BE MADE IN ARMY PROBE

Complete Findings Will be
Made and Sent to
Washington

(By The Associated Press)

Conger, commander of the 50th Infantry, and Captain and Mrs. W. H. Randle, all of Fort Sam Houston, according to Major General Edward M. Lewis, commander of the eighth corps area.

It is upon the basis of these alleged facts that Captain and Mrs. Randle have filed suit against Colonel Conger for \$100,000, alleging defamation. Under orders from General Lewis to investigate in minutest detail the facts in the case from its origin until the present time, Colonel Lincoln F. Kilbourne, inspector general of the eighth corps area today began questioning of witnesses.

"The present investigation is being made by an officer of my staff and his findings, which will be held confidential, at least for the present, will be reported to me direct," said General Lewis. "Later I shall report to Washington the findings in the case."

General Lewis stressed the fact that the hearing insofar as effort being made to ascertain every material point was concerned, would not be hurried. It is the general's idea to learn all he can in connection with the case in order that complete and official findings may be arrived at.

QUESTIONNAIRE SHOWS SPOONING TO BE PREVALENT

Replies Received from
One Thousand
Women

(By The Associated Press)

NEW YORK, April 3.—The prevalence of spooning is shown in replies received by the bureau of social hygiene, founded by John D. Rockefeller, Jr., to a frank questionnaire circulated in what is termed the first exhaustive scientific investigation that has been made of the sex life of the normal educated woman.

A report prepared by Dr. Katherine Gement Davis, general secretary of the bureau on replies received from one thousand married women in various parts of the country shows that 375 admitted having spooned prior to marriage with other than fiancés; 208 spooned with fiancés only and 289 never spooned prior to marriage. The question was left unanswered by 28.

Eleven of the 375 failed to specify the extent of their spoonings, 21 wrote "not far," 50 "kissing only," 104 "hugging and kissing," 45 "hugging, kissing and fondling," and 144 admitted more unrestrained spooning.

Of the 1,000 married women, 872 proclaimed themselves happy. Of the happy group 41 per cent did not spoon, 37 per cent did and 22 per cent spooned only with their fiancés. Of the middle group, 38 per cent admitted the extreme.

Included in the 1,000 married women with which Dr. Davis' report deals 691 were college graduates, 47 college undergraduates, 41 high school and normal school graduates and 12 private school graduates.

Of the 691 college graduates 74 per cent admitted practicing birth control. Health and economic grounds were the reasons chiefly given.

A committee of 11 women widely known for their work in the field of psychology co-operated with Dr. Davis. Care was taken to prevent the identity of those answering the eight page questionnaire from becoming known.

"In no part of the field of education is there greater difference of opinion than that which deals with sex," said Dr. Davis. "This is largely because, except on the pathological side sex is scientifically an unexplored country."

It was explained that heretofore such studies have been made only among women prisoners or pathological cases. The preliminary letter seeking co-operation was sent to 5,000 women in various parts of the country.

Questionnaires eventually were received from 436. The balance of the 1,000 were obtained after letters had been sent to 5,000 alumnae of Vassar, Smith, Wellesley and other women's colleges.

Another set of questions was addressed to unmarried women. These answers gradually are being compiled. Dr. Davis makes few deductions in her report on married. "We must emphasize," she says, "the fact that it is not safe to draw several deductions from this study. The numbers considered are too small and the group is selective. The study does, however, raise important questions and points out the necessity for further study in many directions."

YOUR WILL POWER

(NEA)

It takes death to appraise people of their real worth. Sarah Barnhardt had passed into history. With the perspective of only a few days, the thought probably is occurring to you, that Sarah Barnhardt the woman was a greater character and even more interesting than Sarah Barnhardt the actress.

Years from now her name will be spoken as we of today refer to Lotta, Booth and other theatrical stars of the long ago. And at that future date when young people ask you about the Divine Sarah, the indelible impression that will come to you first will be the way she battled to keep alive.

Time after time, for months, the greatest medical specialists of Europe "gave her up." But Barnhardt fought on. Her refusal to die, her tenacious clinging to life by sheer determination, was a rare example of the power of mind over matter.

Death won the fight—finally. But Sarah Barnhardt heroically held death at bay for weeks. The

power of mind over matter is mighty, but death is the ultimate victor over every living thing.

Any one who has followed the career of Sarah Barnhardt knew that she would "die hard." Her will power as much as her natural genius and her excellent training, made her career a great one. For in her early years on the stage she encountered disappointments, money difficulties and failures that would have discouraged most of us to quit.

Barnhardt was 23 before Doucet "discovered" her. Her will power had kept her going until her training and talent won recognition. While success came comparatively early, she has been battling since she was a precocious child of 14.

Early in the world war Barnhardt had an accident, considered slight at the time. Given the choice of having her leg amputated or quitting the stage she chose amputation.

How many women with one leg cut off at the knee would have the courage to appear in public at all, let alone on the stage where thousands of eyes would be fastened on her as the star?

Will power, thy other name is Barnhardt.

From the career of Sarah Barnhardt, we learn two important and helpful things:

First: The power of mind over matter.

Second: Success is due as much (possibly more to will power) as a natural ability, training, education and influence.

The mightiest force within you is will power. Do not underestimate it.

OLD JACKSONVILLE

FRANK E. KELLOGG

(BY ENSLEY MOORE)
Member Illinois State Historical Society

A number of us remember Frank E. Kellogg, who died about two weeks ago at Santa Barbara, California.

His full name was Franklin Erwin Kellogg, and he was the son of Florentine Erwin Kellogg and his wife, Rebecca Jane Williams before their marriage June 11th, 1837.

The first Kellogg, Lt. Joseph came over from Scotland in 1651 and settled in Farmington, Conn. His fourth lineal descendant, Capt. Elisha, with his brother, Seymour, were with their families, the first white settlers of Morgan county, Illinois, in 1818.

Elsha was the father of Florentine E., born in Batavia, N. Y., in 1816. He was the father of Frank E., born in Napa Valley, California, Sept. 2, 1851 and was graduated from Illinois college, June 6, 1872 in the class with J. P. Lippincott, S. F. Pomeroy, J. K. Shams, J. V. D. Stout and W. D. Wood.

Florentine E. lived in New York, Morgan county and Jo Davies county, Illinois, going then to California in 1846. He returned to Jacksonville in 1871, and again to California a year or two later, making his final home at Goleta where he died in 1879.

From this it will be seen that the Kelloggs were essentially pioneers. Mr. Kellogg's home was at the northwest corner of Grove and Prospect streets, during his last residence here.

These Kelloggs were fine people, abstainers from strong drink, intelligent and good Methodists.

Frank E. married Frances Foster August 15, 1872. She attended the Illinois conference college here. Their first year was passed at Hannibal, Mo., where Frank was studying law. They then went to Napa Valley, California. He taught school for fourteen years. In 1877, he went to Goleta, Calif., where he was principal of the grammar school for ten years. He went to Goleta to a sixty acre farm which his father had given him, which he planted in English walnuts, and lived on it for thirty years, later selling all but four acres for \$1,000 per acre in 1907. He was a director and secretary and manager of the Walnut Growers association.

End part—Mrs. Minnie Steinberg. Magazine quiz—Mrs. Lulu Unland. Business. Hymn—No. 493. Closing prayer. Hostess—Mrs. Effie Kappel.

Miss Bernice Skinner entertained a number of friends at her home Monday evening in honor of her brother, Carl of Champaign who was a guest in the parental home.

MRS. BINGMAN WRITES OBITUARY AND POEM

Relatives Find Paper Written in Red Ink, Which Was Last Message from Woman Who Took Her Own Life.

Mrs. E. C. Bingham, who committed suicide Saturday evening wrote her own obituary. The paper was found after her death. It had been written in red ink. A poem follows the brief summary of Mrs. Bingham's life. It is apparently her last expression of thought before taking the step brought her to suicide. The obituary and poem are as follows:

Mollie C., daughter of C. W. and Mary Parrott, was born near Prentice, Ill., January 28, 1876, being at the time of her death, forty-seven years of age. She was united in marriage to E. C. Bingham April 28, 1909, who survives with one son, Claude. There also survives, one sister, Mrs. L. J. Stewart, of Sinclair.

The deceased was preceded in death by her mother and father, two sisters and two brothers. Oh sweet is the sleep that comes to me now.

My burdens I can no longer bear

I'll soon enter into that Heaven of rest.

Oh, I'll soon be at home over there.

I'll soon be at home with loved ones.

Those who have gone on before.

Just across on yon other bright shore.

I am going where sorrow and pain never come

And my trials will all soon be o'er.

My Saviour has called me, my trials are o'er.

I must cross the dark valley of death.

I am ready and waiting, for well do I know

I will soon be at home and at rest.

SPIRITED CONTEST IN WHITE HALL ELECTION

Keen Interest Manifested in Contest for Office of Supervisor—Memorial Library Tax Favored by Voters.

White Hall, April 3.—One of the most spirited contests in recent years was that which developed in the election Tuesday for the office of supervisor of White Hall township. George Chism was elected over Joseph Schier, the present incumbent, by a majority of 58 votes. The former's total vote was 498, while Mr. Schier received 350 votes. Lester Vinyard, a third candidate, was given 322 votes.

The mill tax for the support of the new Whiteside-Grissold Memorial library carried by a vote of more than two to one. This is looked upon as a high tribute to Seth N. Grissold, who is erecting the new library at his own expense. The building is now enclosed and its completion is but a matter of a few weeks.

Mrs. Charles E. Stopson and Mrs. William Blake were elected library trustees in the election Tuesday.

What to Eat and Why

A Natural Supply of Vitamin

The word "Vitamin" is new, but the thing itself is as old as the human race. It is the energizing, vitalizing, growth-producing element in the right food. Its absence is a serious fault of the wrong food. When the food is right, there is no need to go to the drug store for Vitamin.

Grape-Nuts, the famous ready-to-eat cereal, supplies the natural Vitamin from the wheat, and a further supply is included in the cream or milk with which Grape-Nuts is eaten.

Grape-Nuts is delightfully crisp and appetizing, with a flavor which happily suggests the wholesome, health-building goodness which the food contains. Phosphorus and iron, as well as Vitamin, with a

bran content to stimulate intestinal action, are supplied by Grape-Nuts. Many of our modern, "refined" foods lack these vitally necessary elements. Grape-Nuts digests easily and is assimilated quickly, and is splendidly nourishing and energizing. You'll find better health and fitness, in the natural way, with Grape-Nuts as a regular part of your diet.

There's genuine economy in Grape-Nuts—many servings of this exceptionally nourishing food to the package. At your grocer's—ready to serve. Grape-Nuts—the Body Builder. "There's a Reason." Made by Postum Cereal Co., Inc., Battle Creek, Michigan.

DEFENSE MAKES AN EFFORT TO PROVE POSITIVE ALIBIS

Offers Eye Witnesses for
Otis Clark and Oscar
Howard

(By The Associated Press)
MARION, Ill., April 3.—Eight eye witnesses were called to the stand by the defense in the Herin riots trial today in an effort to establish positive alibis for Otis Clark and Oscar Howard, two of the six defendants.

"If there is going to be any murdering, I'll quit right now," three witnesses declared they had heard Clark say in a speech to a crowd of men, many of them armed, who had taken forty-eight non-union workers from the mine of the Southern Illinois Coal company.

"For God's sake don't do it, the United Mine Workers won't stand for murder," Clark was quoted as telling members of the crowd who were urging that the prisoners be taken out and killed. "To wipe out the breed."

Witnesses for the state previously had identified Clark as having made the speech urging the killing of the prisoners while an unidentified man pleaded for their lives in the very words attributed to Clark by the defense witnesses.

Clark and Howard it was charged by the state then marched on with the crowd and its prisoners to Moak Crossing where they took C. K. McDowell, crippled superintendent of the mine who was unable to keep up the pace from the line and led him to the spot where his body was found shortly afterwards.

GARDINI FLOPS LEWIS BUT LOSES MATCH

(By The Associated Press)

CHICAGO, April 3.—Ed "Strangler" Lewis, heavyweight wrestling champion, won the third fall and his match with Renato Gardini, Italian heavyweight champion here tonight after three minutes and 20 seconds of wrestling. He applied five headlocks in succession and then pinned Gardini to the mat with a flying headlock.

Gardini got the first fall with a flying headlock after 20 minutes and 32 seconds of wrestling. He caught Lewis unexpectedly and threw him to the mat with such force that the breath was knocked out of the champion.

An hour and twelve minutes later after using his famous headlock a dozen times in succession, Lewis threw Gardini for the first time and then repeated the feat three minutes afterward.

Gardini guaranteed Lewis \$10,000 for the match which was witnessed by a crowd estimated at 9,000. Gardini's wife acted as his trainer and his father-in-law put up the cash to get the match with Lewis.

The parol was adopted by France in the sixteenth century.

The Pravda says the execution occurred on March 31. The newspaper Izvestia asserts: "The sentence of death on Butchkavitch, whose reprieve was refused has been carried out." The time and place are not given.

Vicar General Butchkavitch was

found guilty and executed as violator of the criminal code which provides the death penalty or imprisonment for participation in any organization which is acting with the purpose of exciting the population to mass agitation, non-payment of taxes, fulfillment of its duties, or by any other means clearly detrimental to the dictatorship of the working class and the proletarian revolution, altho an uprising or an armed insurrection is not the chief aim of that organization.

Only two papers, the official Izvestia and Pravda, carried the laconic announcement of the execution that printed in the Pravda reading:

"On March 31, was brought in to effect the death sentence on the priest Butchkavitch, con-

demned in the case of the Catholic counter-revolutionists."

The paragraph in Izvestia reads: "The sentence of the supreme court of the republic with regard to Butchkavitch who was condemned to be shot and whose reprieve, which had been requested, was disregarded by the central executive committee, has been carried out."

Living Memorial to Theodore Roosevelt

Pinchot Says It Has Potentialities of Moral Leadership Lacking Since Roosevelt Died

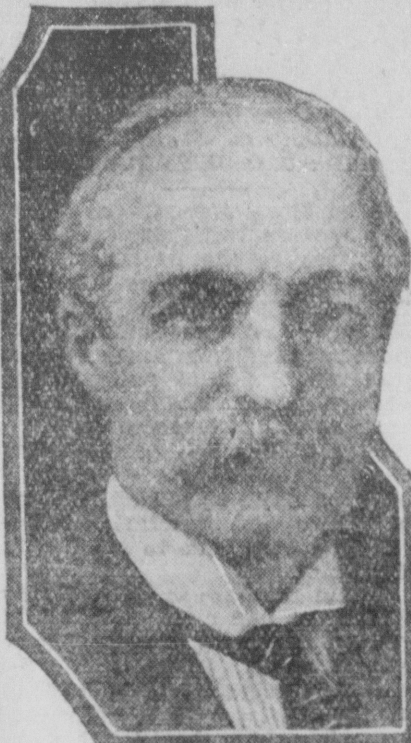

The announcement recently made by Gifford Pinchot, Governor of Pennsylvania, and close friend of Theodore Roosevelt, of the establishment of a "living memorial to Roosevelt" has created wide-spread interest among followers of "T. R." throughout the country. Pinchot is chairman of the Committee on the Perpetuation of Roosevelt's Ideals, a part of the Roosevelt Memorial Association, and he made the announcement in connection with a meeting of his committee in the State Capitol in Harrisburg.

Potentialities of Leadership
"When Roosevelt died," said Governor Pinchot, "the American people showed in a manner not to be misunderstood that they wanted some form of living memorial in addition to a monument. I am proud and happy to announce that this living memorial has been created. The Roosevelt Memorial Association has developed a special organization whose object will be to bring to the generations to come the message of Roosevelt's life. This organization is already issuing various publications, from biographical sketches of Roosevelt for school children to historical works intended mainly for scholars."

"But it will do more than this. Through State and local committees it will endeavor to impress the importance of the personal and civic ideal of Roosevelt upon the educational system of the country. Through prize competitions it will stimulate children to study his life. Through special awards it will honor those who have done conspicuous service to the nation in carrying on the ideals for which Roosevelt contended."

"I believe this living memorial to Roosevelt has in it the potentialities of a moral leadership which the nation has not known since the death of Roosevelt."

To Greater Activities
"A great Roosevelt library and museum, which will be lodged in Roosevelt House at 28 East 20th

Gifford Pinchot of Pennsylvania who praises Living Memorial to Roosevelt.

Street, New York, have already been established," said Hermann Hagedorn, director of the Roosevelt Memorial Association, "and our research work is a going concern. That work has received such a start that it would be hard to stop them to keep it going. We are now moving on to greater activities. We want to enlist the aid of every true follower of Roosevelt in the country in spreading Roosevelt's principles of manly character, civic service and single-minded devotion to American institutions. The question, 'What can one man do?' was answered for all time by Roosevelt himself. Every man and woman, every girl and boy who believes in the principles in which Roosevelt believed, can, in his own community, to some degree, help in establishing those principles forever as a part of the American character. If he wants guidance, the Roosevelt Memorial Association is there to give it to him."

Activities of the Living Memorial to Theodore Roosevelt.

Assembling a great memorial library of manuscripts, books, pamphlets, magazine articles, newspaper clippings, photographs and cartoons relating to Roosevelt.
Establishing a Roosevelt museum at his birthplace for the exhibition of memorabilia.
Gathering biographical data on Roosevelt.
Arranging and calendaring Roosevelt's correspondence in the Library of Congress.
Issuing publications about Roosevelt.
Compiling selections from his writings for use in schools.
Compiling a cyclopedia of Roosevelt quotations, similar to the "Jeffersonian Cyclopedia."
Preparing an exhaustive Roosevelt bibliography.
Editing Roosevelt's complete works for the standard collected edition.
Printing text and slides for lectures on Roosevelt's life.
Collecting moving picture films of Roosevelt.
The headquarters of the Roosevelt Memorial Association are at One Madison Avenue, New York.

State Organization

"Steps are already being taken by Roosevelt enthusiasts in one of the greatest states east of the Mississippi, to set up an organization by counties for the purpose of spreading Roosevelt's ideals of personal character and civic betterment."

The members of the Committee on the Perpetuation of Roosevelt's Ideals are:
Lawrence F. Abbott, president of The Outlook Company; Carl E. Akely, sculptor and big game hunter; Henry J. Allen, former governor of Kansas; R. J. Cuddihy, publisher of the Literary Digest; Hermann Hagedorn, Director of the Roosevelt Memorial Association; Albert Bushnell Hart, professor of government at Harvard; Dr. Alexander Lambert, Roosevelt's personal physician for twenty-five years; Mrs. Medill McCormick, wife of Senator McCormick; and daughter of the late Mark Hanna; Mrs. C. A. Severance of Minneapolis; Albert Shaw, editor of the Review of Reviews; Oscar S. Straus, Secretary of Commerce and Labor in President Roosevelt's Cabinet; Mark Sullivan; E. A. Van Valkenburg, publisher of The Philadelphia North American; and Henry C. Wallace, Secretary of Agriculture.

ROWE'S TEAM LEADS HOTEL CAMPAIGNERS

Official Standing of Teams Is Announced—More Reports Expected at Meeting This Evening—Hotel Will Bring Conventions Here

R. Y. Rowe's team is leading in the securing of subscriptions to the new hotel, according to an official report of the standing of the teams issued yesterday from the Chamber of Commerce. The standing is given up to April 3, and further reports from the teams will be given at the meeting tonight at 7:30.

It is expected to put the total above the \$200,000 mark by tonight, and close the campaign. Teams are working hard and with genuine enthusiasm. Anyone who wants any information on the new hotel, the organization of the company, or any part of the plan of procedure, may call the Chamber of Commerce and get such information. Those in charge of the hotel campaign are glad at any time to tell the people about the plan of movement and the advantages which a new hotel will bring to Jacksonville.

During the past year, Decatur has had fifty conventions, made possible by the building of the Orlando. At times all hotels in the city have been crowded, and it has been necessary to appeal to the people to open their homes to visitors. Not only was the dining room of the Orlando taxed to capacity, but lunch rooms and restaurants throughout the business districts were crowded.

Jacksonville is in line for numbers of big state conventions, and they are ready to come when accommodations are provided. The new hotel will meet the situation. Following is the standing of the campaign teams. The subscription of \$100 credited to Louis Perbix in a recent report should have been \$200.

CLUB WOMEN HEAR HEALTH DISCUSSION

Straw's Crossing Club Members Addressed by Dr. R. V. Brokaw Tuesday Afternoon

The meeting of the Straw's Crossing Women's club held Tuesday afternoon at the home of Mrs. J. E. Rawlings east of the city, was given over to a health program. The address of the afternoon was made by Dr. R. V. Brokaw, county health officer and was heard by a large number of the members and invited guests.

During the afternoon some pleasing musical numbers were given as indicated below:

Piano selection—Winona Rawlings.

Violin duet—Wendell Rawlings and Beaumont Potter.

Trio—Mrs. J. E. Rawlings, Winona and Wendell Rawlings, (piano, violin and cello).

A few paragraphs from Dr. Brokaw's address are given here:

"Child hygiene is of first importance in the program of every health department. Seventy-five cents of every dollar appropriated for health work should be spent on children.

"Every child has the right to be well born; and the contracting parties in every marriage should at least be required to furnish a certificate of freedom from disease.

"Fresh air and sunshine, a daily bath, mother's milk, are the prime factors in the proper development of the baby.

"Every child should be vaccinated against smallpox before it is a year old and re-vaccinated at about ten or twelve years of age.

"Immunization against diphtheria by the toxin-anti-toxin method is a perfectly safe and reliable and permanent safe guard against the onslaught of this disease, and no child should be without this protection.

"Mothers often do not recognize the fact that the 'six year molars' are permanent teeth and many of these teeth are therefore needlessly sacrificed. An early visit to the dentist will avoid this error. Decayed first teeth should never be neglected. Children of any age with decayed teeth are more likely to catch communicable diseases.

"Defective vision is not only a serious handicap to the school child but also has the tendency to reduce the efficiency of the adult.

"Diseased tonsils may cause mal-nutrition, deafness, poor vision, rheumatism, heart trouble or certain nervous disorders.

"The correction of physical defects of childhood can best be accomplished by an adequate system of medical inspection in the public schools, and this phase of public health work is receiving due emphasis in the program outlined for Morgan county."

Following the program there was a very pleasant social time and the hostess served delightful refreshments. The next meeting of the club will be held on Tuesday, April 17, at the home of Miss Anna McDonald, northeast of the city.

MYSTERY WOMAN HAS ADVENTUROUS CAREER

Young Lady who Was Found Unconscious Here Monday Night Turns up in San Jose—Came Here from Springfield and Got Position at State Hospital—Believed to Have Drug Habit.

Miss Nora Jensen, the "Mystery Woman," who was found unconscious on the Passavant hospital grounds Monday evening, fell on the sidewalk at San Jose, Ill., early last night, according to word received from authorities of that city by local police. The above statement may sound strange, but it is no more startling than the story of the young woman's adventures during the past ten days, as pieced together by police and hospital authorities who have been in touch with the case.

About ten days ago a girl, who later said her name was Laura Jansen, was found unconscious at Auburn and taken to the St. John's hospital in Springfield. When she recovered consciousness, she told authorities that she was on her way to visit her grandmother in Jacksonville. She claimed that she had been hurt in an auto accident some years ago and had received a wound in the head, which caused her to faint at times. The Springfield authorities could learn nothing as to the identity of Miss Jansen's relatives and she was released from the hospital.

Late Monday night a young woman was picked up on East State street and taken to Passavant hospital. Early yesterday morning the head nurse at Jacksonville state hospital visited the patient, who had recovered consciousness, and identified her as Miss Nora Jensen, a nurse at the institution.

State hospital officers stated that Miss Jensen appeared at the institution about four days ago and stated that she was a trained nurse. She asked for employment and was given a trial. Monday evening the lady approached one of the hospital physicians and said that she had a pain in her head. She showed him a splotch of red near her right ear, which she claimed was blood. She stated that she had been hurt in an auto accident, which had caused her condition. She then, according to the physician, hinted that she wanted morphine.

Physician Refuses Drug.
The physician refused to give the drug and accused Miss Jensen of staining her face to deceive the doctors. Upon being refused the morphine, Miss Jensen is said to have left the institution in a rage. She apparently took a car to the East State end of the line, where she collapsed and was later found unconscious.

After being identified at the hospital yesterday morning, Miss Jensen was accompanied by the head nurse back to the Jacksonville state hospital. She was then told that her services were no longer needed there. She left the institution, and hospital authorities had no further knowledge of her whereabouts.

The message from San Jose to local police, however, indicates that Miss Jensen bought a ticket north and boarded the C. & A. passenger leaving here at 2:40 o'clock yesterday afternoon. San Jose police had read of the Springfield incident, and acting on the theory that Miss Jansen and Miss Jensen were two names for the same person, called police here to find out the identity of the lady's relatives in this city.

Those in Jacksonville who were interested in the case were also working on the theory that the two names belonged to the same person. That the young woman is addicted to the drug habit is the opinion of physicians who have examined her. Her frequent fainting fits are apparently the result of hysteria, physicians believe. It is now thought that she has no relatives in Jacksonville, as she made no attempt to locate them while here. She is twenty-eight years old.

The Ebenezer Ladies Aid will give a chicken supper and bazar at the church this evening. Supper at 5 o'clock.

HAS NO TIME TO GET MEDAL

KANSAS CITY, April 3.—Mayor Frank Cromwell, police commissioner, Oppenstein, Chief of Police Vassar, and a few others gathered at police headquarters here to bestow upon George McConkey, grocer and former Texas cowboy, a gold medal, "awarded by the Metropolitan police department, Kansas City, Mo., for meritorious service," in the killing of two bandits.

But the object of the bestowal was missing.

E. L. Winn, police board secretary, called on the telephone for McConkey.

"I haven't time to come to police headquarters," the grocer announced.

"But it is a gold medal and the mayor and the chief and the commissioner wish to meet you," Winn reasoned.

"Can't help that. I can't shut up the store."

A motorcycle patrolman carried the medal to the store.

LINCOLN SERVICE

The satisfaction to be derived from the operation of an automobile is in direct proportion to its quality, the facilities provided for its maintenance and the care which it receives. Only when these elements are well balanced does the purchase of a motor car become a good investment.

Lincoln owners know that Lincoln cars in ordinary usage demand little attention other than the replenishment of gasoline, oil and water. That is because the service requirements of motor cars are in inverse ratio to the quality and character built into them by the manufacturers.

Periodic inspection, proper lubrication and minor adjustments, when necessary, are essential to the proper and prolonged functioning of any piece of machinery. With quality as a prime factor, it is the secret of economical and dependable transportation.

To insure the operation of Lincoln cars as a source of uninterrupted satisfaction and enjoyment, through the medium of adequate and convenient service facilities, it is the purpose of the Ford Motor Company that its entire dealer organization be equipped to render efficient and intelligent service to Lincoln owners.

Thousands of Ford Dealers in the United States are being equipped with specially trained Lincoln men, competent to make minor adjustments and of providing for ordinary service requirements.

Under this arrangement, a Lincoln owner, whether touring a continent or crossing his own city, may with confidence enter a Ford Dealer's place of business and be assured of prompt, courteous and intelligent treatment by an organization with a personal interest in his welfare.

It is not intended, or necessary, that all Ford Dealers be equipped to do major repair work or overhauling on Lincoln cars. Adequate provision is made, however, whereby such work will be done in each territory, when necessary, by dealers who are especially equipped to render high grade service in keeping with the character of the product.

We believe that the Lincoln will run farther and require less mechanical attention than any other car in the world. It is significant and a matter of utmost importance to prospective owners of quality cars that the incomparable, world-wide facilities of the Ford Motor Company should make the ownership of a Lincoln even more desirable than ever before.

Illinois College Glee Club Is Making Tour

The Men's glee club of Illinois college starts today on a tour of several cities, including Hannibal, Quincy. The program will be essentially the same as that which gave such complete satisfaction here recently. It has been several years since an Illinois college had a glee club such as this one and many more since one went on tour. It is the sentiment of the campus that the present club should visit other cities and offer the citizens the wonderful program which was given to local people.

Oklahoma Legislature Approves Plans for World Peace

OKLAHOMA CITY, Okla.—The Oklahoma legislature has memorialized President Harding and Congress to adopt a program for world peace, based upon principles adopted by the Interallied Veterans Federation at its recent convention. The Federation is composed of fifteen million allied ex-service men. The American Legion is the member body in the United States.

A resolution adopted by the legislature designates Roy Hoff, man, of Oklahoma City, a member of the supreme council of the Federation, to Oklahoma's endorsement of the Federation's principles to President Harding and to the veterans' organization. The principles of the Federation adopted at the last convention in New Orleans follow:

1. That all international agreements among governments affecting the entire people shall be open and above-board with full publicity.
2. That treaties make the law between nations. They must be executed in good faith.
3. To oppose territorial aggrandizement.
4. To vigorously suppress within our own boundaries all persons and propaganda seeking to overthrow by force government existing by the will of the people.
5. That trade relations be suspended with countries maintaining armies organized for aggressive purposes in order to promote stability of exchange and international commerce.
6. That a news disseminating bureau be established by the Federation in every member country, with the consent of the government, to collect and issue news to counteract bolshevism and other dangerous movements.
7. That an international court be established to out war.
8. To proceed as rapidly as conditions permit toward complete disarmament except police forces to maintain decrees of the world court.

WASHINGTON RELIC GIVEN TO RESIDENTS OF ILLINOIS

Bellefonte, Ill. — A snuff box said to have been given George Washington while he was president is now the property of Henry Williams, Jr., of this city. The box, besides being a receptacle for snuff, contains a drawer and compartments for a quill and ink, and is said to have been made from a branch of an oak tree centuries ago.

It is said to have been sent to Washington by the Earl of Buchanan. It was carried in the battle of Falkirk, in Scotland, July, 1298, it is related.

Washington returned it to the Earl, it is stated, but ultimately it came in the possession of a naval commodore, who gave it to a Miss Clark of Delaware. Miss Clark later married and became the mother of Volney L. Williams, a pioneer settler here.

BETROTHAL OF LADY URSULA STARTLES LONDON SOCIETY

London.—The recent announcement that a daughter of an English Duke was to marry a professional jockey has given London society a severe shock, even in the face of the fact that aristocracy is not an aristocratic as it was when Queen Victoria ruled the land. The news was probably the chief topic at London's dinner tables for many days, and it will be interesting to see if the fact affects the popularity of the bride-to-be.

She is Lady Ursula Grosvenor, elder daughter of the Duke of Westminster, and she will marry Jack Anthony, one of the well known steeplechase jockeys. Lady Ursula is just twenty-one years old and has been considered one of the most beautiful and popular girls of the younger set.

Anthony comes of a good family and served as an officer in the war. His father is a prosperous farmer. The young man rode as an amateur for some years before becoming a professional.

Price of pea briquettes, used in Sweden, are said to be one-half that of anthracite coal.

A Personal Experience With Standard Oil

"Chicago, March 7.—I read with a great deal of interest the editorial, 'Shall Ruin Be the Penalty of Success,' in connection with the report of the senate committee attacking the various Standard Oil companies.

I want to take this opportunity of relating my personal experience with the Standard Oil Company of Indiana.

Having changed from a coal to an oil burning furnace, I was in the market for fuel oil, and after figuring with several oil companies I closed a contract with the Standard Oil of Indiana, simply because their contract was more liberal and advantageous to me in every way.

I secured cheaper oil, better oil, and first class service." D. G. Moustakis

The letter reprinted above appeared in the Voice of the People columns of a Chicago newspaper, March 9, 1923.

Cheaper oil—better oil—and first class service.

That, in terse simple terms, expresses the ideals which have made the Standard Oil Company (Indiana) big.

The Standard Oil Company (Indiana) is big because it is called upon to render a big service. Its financial statement deals in big figures because it does an enormous volume of business in a multiplicity of products entering innumerable fields of industry.

Because the Standard Oil Company (Indiana) manufactures a great number of useful products from a single basic material, it is able to cut the manufacturing cost of each item in a way that accrues to the benefit and financial advantage of the consumer whether he buys a quart or a carload.

Quality of Work Done in Grade Schools of Jacksonville Receives High Commendation from University Authority—Letter to Shafer Speaks for Itself

High commendation for teaching and class work in arithmetic in the grade schools of Jacksonville has recently been received from authoritative sources by Supt. B. P. Shafer. Miss Ruth Stritz, associate professor of Education at the University of Illinois, recently visited the Franklin school and inspected the work in arithmetic. The letter which she sent to Supt. Shafer following her visit speaks for itself, and such praise from an authority on the work is very gratifying to teachers and officials of the local schools.

The letter reads as follows: Supt. B. P. Shafer, Jacksonville, Ill. My Dear Mr. Shafer:

I want to thank you for the courtesies extended to me by you and your teachers the day I visited the Franklin school in Jacksonville. I found some excellent work in arithmetic there. The work in the fourth grade I considered exceptionally good. The other rooms visited also displayed skill in presenting this subject and although I realize that only a few hours were spent, this type of work is no doubt indicative of the character of the work which is being done in this school. I regret that my time was so limited.

SOME UPSETS OCCUR IN B. B. TOURNAMENT

Hume-Fogg Falls Before New Trier High—Results of Other Games.

CHICAGO, April 3.—The annual national invitation interscholastic basketball tournament under the auspices of the University of Chicago got under way here today with twenty prep schools, most of them state champions facing each other in the first round of ten games.

The winners emerging from the first day's play were almost as representative of the country as the forty teams from 31 states that are competing. Some of these winners will face further tests of their ability tomorrow when they will be pitted against some of the teams that have not yet shown their caliber.

Today's games were decisive in the opening rounds but the last few matches tonight were featured by some close contests, one an extra period game. Walla Walla, Wash., took the first game this afternoon 36 to 29, from Gloversville, N. Y., with very little trouble and this game was followed by the decisive victory of Natick, Mass., over Miles City, Mont., high 32 to 22.

Chicago, S. C., entirely outclassed the Dallas, Texas, team in a game which ended 43 to 22. The first upset of the day came with the defeat of Hume-Fogg of Nashville, Tenn., runner up in the 1922 tournament, by New Trier High of Chicago, 33 to 23. Hume-Fogg put up an excellent game but those who had previously seen New Trier in action declared that the Chicago team played the game of its career.

Hume-Fogg had been considered of championship caliber. The Mesa, Arizona team drew Lanier High of Macon, Ga., for an opponent and the two aggregations put up one of the best games of the day, Mesa winning 38 to 28. Both teams were composed of husky tossers and despite their size the players proved fast.

Loraine, Ohio, touted as a team likely to make a strong bid for the National Championship, took its first game from Aurora, Minn., 28 to 24, but it had no walkaway in doing so.

Loraine led 18 to 16 at the half and battle all the way thru the period to maintain its advantage to the end of the game. The teams went into a whirlwind finish, but the Minnesota quintet was unable to put over the winning points. Immediately following this contest came another thriller when Windsor, Colorado, a team that is also making a try for the first position honors defeated the Norfolk, Va., team in an extra period 29 to 26.

The Hagerman, N. M., team the quintet without a coach and without a basketball floor—playing on a dirt floor on an open prairie—was defeated by Hyde Park High of Chicago, 41 to 21. The Hagerman team held the Hyde Park outfit during the first half when Chicago led 18 to 13 but was in the second was unable to stem Hyde Park's offensive.

CHAMPIONS WIN THEIR SECOND GAME
New York, April 3.—Defending the national title they won last year, Frank T. Anderson, of Columbia, and S. Howard Voshell, Brooklyn, today defeated Frank Hard, New York and John V. Carney, Princeton, 6-0, 6-1 in the second round of the doubles in the indoor tennis tournament.

The champions tomorrow will meet H. C. Penfield, New York and R. W. Garbutt, South Africa who were advanced to the third round today thru the default of P. C. Hart, Canada and partner.

NO HIT ROBERTSON SIGNS WITH SOX
Fort Worth, Texas, April 3.—Charles Robertson of no-hit pitching fame with the Chicago White Sox signed a contract this afternoon after being a holdout. He will leave tonight for Shreveport with the Sox. Robertson has been coaching Austin College Baseball team at Sherman this spring. Sherman is his home city.

WORLD'S RECORD IN BOWLING CONGRESS
Milwaukee, Wis., April 3.—Another world's record score was established today in the American Bowling Congress tournament when W. Knox of Philadelphia took the lead in all events with a grand total of 2,019, topping the former mark held by C. Daw of Milwaukee by five pins. Shooting with the Quakers team of Philadelphia last night Knox scored 618 pins in the doubles today paired with C. Trucks, he rolled 686, which coupled with his partner's total of 616 put them in fourth place in the strong in his singles and turned in games of 192, 244 and 279 for a total of 715 and third place in the individual event. In the last game the Philadelphia started off with eight strikes and the ninth ball hit the pocket perfect but the No. 8 pin stood. He then struck out for the highest single game score of the meet.

It is expected that the organization of class teams will eventually lead to an interclass baseball championship series.

First practice in track and field work was held Monday evening. Only a few men were reported out, but more expected to appear in suits later in the season. Active work in both baseball and track will start as soon as the weather is sufficiently warm to permit continued outdoor practice.

FAILURE OF RAINS BOOSTS WHEAT PRICES

CHICAGO, April 3.—With rains failing to appear where most needed in western parts of the winter crop belt the wheat market today averaged higher in price. Closing quotations were unsettled at the same as yesterday's finish to 1c up, May \$1.20 1/2 to \$1.20 3/4 and July \$1.17 1/2 to \$1.17 3/4.

Corn gained 1/4 to 1/2c and oats a shade to 1c, in provisions the outcome varied from unchanged figures to 7c advance. Helped by an upturn in values at Liverpool as well as influenced by reports that drought conditions far from being abated were extending eastward in Kansas the wheat market here had a noticeable tendency to ascend during the early trading. Bullish sentiment was fostered in some degree too, by gossip regarding proposed systematic curtailment of spring wheat planting. On the bulges in price, however, demand dwindled and the market developed temporary weakness. May delivery in particular.

Sales of wheat to go into storage here for delivery on May contracts were more or less responsible for transient setbacks in price which took place, and forecasts of unsettled weather in Nebraska and Kansas counted also as temporary bearish factors. A new estimate putting the probable domestic yield of winter wheat at 595,000,000 bushels was likewise given some attention. Sellers though apparently overreached themselves, and with offerings scarce the market was rallying well as the day drew to an end.

Corn and oats were given a little independent strength as result of some improvement shipping call here for corn. Provisions closed steady.

GRAND OPENING FOR NEW ARMORY PLANNED

Howitzer Company Expects to Build New Quarters with Big Dance and Presence of Official Guest—State Inspection to be Held Thursday Evening.

The work of getting the new national guard armory on East State street in shape for occupancy by the Howitzer company, is progressing rapidly. The floor is being constructed, additional room is being made in the hall, and lockers and other furnishings are being installed.

It is expected to hold a grand opening of the new armory some evening about the middle of the month. The floor will be in fine shape for dancing, and the boys of the company are anticipating a big opening night. An effort is to be made to secure the presence of several state officials from Springfield for that occasion.

On Thursday evening of this week, the annual state inspection of the company will be held in the new quarters. The Inspector will be Lieut. Col. Charles W. Nunan, commanding officer of the 130th Infantry, Illinois National Guard.

Capt. Wesley James, commander of the local company, has received from Washington a letter absolving him from all responsibility for the loss of military equipment in the fire which destroyed the old armory. The document is the culmination of investigations made by the federal board of survey shortly after the fire. This is a customary procedure with the government in cases where army equipment is destroyed or lost.

AT HERMAN'S
JUST RECEIVED FROM NEW YORK CITY FIFTY TRIMMED HATS TO BE ON SALE TOMORROW FOR \$5.00

**CAPT. JAMES NOW
RESERVE OFFICER**

Capt. Wesley James of this city has received from Washington a commission as captain in the officers reserve corps of the U. S. army. The commission entitles him to service as an officer in case of war, without the preliminary training in a military school.

In case Capt. James wishes to retire from active service in the Illinois National Guard, he will still hold his commission as a federal reserve officer. This makes him subject to immediate call into active service in case of military necessity. The commission is issued by the war department and is signed by President Harding.

Quick Quaker

Cooks to perfection in 3 to 5 minutes

The quickest cooking oats in the world

These are small thin flakes which are partly cooked. But the quality and flavor are identical with regular Quaker Oats.

Regular Quaker

The kind you have always used

Your grocer has both styles—take your choice. The coupon is good for a package of either.

Quaker Oats now comes in two styles—the Quick and the Regular.

Quick Quaker Oats—perfected by our experts—is the quickest cooking oats in the world. It cooks to perfection in from 3 to 5 minutes. It cooks as well as an hour would cook it. Experts certify to that.

So Quick Quaker is almost ready to eat. It is ready before the coffee.

**Both flaked from queen grains
Both have that extra flavor**

Quaker Oats stands supreme among oat foods the world over. Millions of oat lovers send overseas to get it. Nowhere on earth do people find an oat dish that compares.

The reason lies in flavor. Quaker is flaked from queen grains only—just the rich, plump, flavory oats. A bushel of choice oats yields but ten pounds of these delicious flakes.

Quick Quaker is made from the same queen oats. But the grains are cut before flaking. They are rolled very thin and are partly cooked—roasted and steamed 90 minutes.

So the flakes are smaller and thinner—that is all. And those small thin flakes cook quickly.

The kind that children love

Quaker Oats is made to foster the love of oats. The oat is supreme food. As a food for growth and as vim-food nothing can take its place.

Oats yield 1810 calories of nutriment per pound, while round steak yields 890. Oats supply 16 needed elements in a balanced form. They are rich in minerals which growing children need. So the oat forms almost a complete food—nearly the ideal food.

Every mother wants to make this dish inviting, and we make these luscious flakes to aid her. Yet they cost no extra price. Quaker Oats, in either style, costs but one-half cent per dish.

We'll buy a package for you

We want you to try Quaker Oats this week in the style which you prefer. Any grocer will accept this coupon for a full-size package, and we will pay him for it.

Present it this week to your grocer. Tell him which style you want—the Quick or the Regular. Learn how much this extra flavor means to you and yours.

Cut out the coupon so you won't forget. This offer expires April 14, 1923.

One Package Free

Insert your name and address. Then present this coupon to your grocer. He will give you a package of Quaker Oats (standard package)—either the Quick or the Regular—and charge the price to us.
